# Version 12.203

**Release Notes**

**Dec 30, 2020**

ASMi is continuously being improved and enhanced to provide the best product for you, our customer. We provide regular updates which include improvements for performance and reliability. In addition to these standard improvements, we have included a list below of ASMi and Command Portal enhancements and refinements. As an ASMi customer, your ASMi experience is very important to us and we provide this guide as an understanding of periodic changes.

For further information please contact our customer support number at (210) 761-9611 or email at support@asmisystem.com.

 **Fixed Issues**

---

**Assigning Jobs**

- Wrong configuration group was being assigned when jobs were assigned to personnel.
    - Added a configuration group dropdown to allow users to select a configuration group from the list of configuration groups the user who is assigning the job has access to.
    - Configuration group dropdown will only be displayed if the selected job has an associated role and that associated role has at least one permission which requires a configuration group.

**Configure>Security >Roles**

- Added Organization and Configuration Group columns to the roles page, in the list page for privileges, as well as the popup page where you add/remove privileges from the role.

## Privileges

Add

| | Name | Description | Organization | Configuration Group | Access Level |
